

AUTOMATION **EXPO2025** TM

18th India International Trade Show

Crafting a Resilient & Sustainable Future through Automation

11th -14th Aug '25

Hall 2, 3 & 6, BEC, Goregaon, Mumbai

10:00 AM to
6:00 PM

Organisers:

IED Communications Ltd.

www.automationindiaexpo.com

Themes of Automation Expo 2025

Sustainability through Automation

Discover how automation is leading the charge in sustainability. From energy-efficient technologies to the integration of renewable resources, our exhibitors and speakers will delve into the innovations that make industries greener. Attend sessions by leading experts who are transforming challenges into opportunities, ensuring that automation aligns with global sustainability goals.

Featured Sessions:

"Energy Efficiency: The New Frontier in Automation"

"Circular Economy: Designing Automation for Longevity"

Safety Innovations

Safety remains a cornerstone of industrial progress. Explore the latest advancements in safety protocols and technologies that are enhancing protection in automated environments. Learn about AI-driven safety systems and predictive maintenance strategies that are reducing risks and improving operational reliability.

Featured Sessions:

"AI and IoT: The Future of Safety with Automation"

"Global Safety Standards: Compliance and Innovation"

Machine Vision

Future of Visual Technology

Discover cutting-edge AI vision systems, smart inspection tech, and automated quality control solutions. As industries embrace Industry 4.0, machine vision boosts precision, efficiency, and defect detection in manufacturing, logistics, and quality assurance.

Potential Visitors

- Manufacturing & Industrial Automation
- Robotics & Automation Engineers
- Pharmaceutical & Medical Device Industry
- Food & Beverage Industry
- Electronics and Semiconductor Industry
- Packaging & Labeling
- Logistics & Supply Chain
- Artificial Intelligence & Deep Learning Engineers
- System Integrators & Solution Providers
- Transportation & Automotive
- Telecommunications
- Smart Cities
- Textiles
- Biotechnology
- Environmental Monitoring Specialists
- Government and Regulatory Officials

Robotics Zone

Engineer the Extraordinary: Robotics for a Smarter Tomorrow

A hub for industrial and collaborative robotics, AI-driven automation, and autonomous systems, showcasing advanced solutions that boost efficiency, precision, and scalability in industrial operations.

Potential Visitors

- Manufacturing Leaders
- Automation Engineers
- Operations Managers
- Supply Chain Managers
- Quality Assurance Managers
- Healthcare Professionals
- Construction Industry Representatives
- Automotive Industry Professionals
- Agricultural Sector Representatives
- Energy Sector Professionals
- Military and Defense Personnel
- Retail Managers
- Educational Institutions
- Research Scientists
- Startup Entrepreneurs
- Investors and Venture Capitalists
- Environmental Engineers
- Pharmaceutical Industry Executives
- Telecommunications Technicians

Sustain Tech Zone

Shaping Sustainable Industries

Dedicated to showcasing sustainable automation solutions that drive energy efficiency, carbon footprint reduction, and eco-friendly industrial practices. As industries worldwide strive for net-zero goals and environmental responsibility, automation plays a crucial role in enabling a greener, smarter, and more sustainable future.

Potential Visitors

- Manufacturing & Industrial Automation
- Robotics & Automation Engineers
- Pharmaceutical & Medical Device Industry
- Food & Beverage Industry
- Electronics and Semiconductor Industry
- Packaging & Labeling
- Logistics & Supply Chain
- Artificial Intelligence & Deep Learning Engineers
- System Integrators & Solution Providers
- Transportation & Automotive
- Telecommunications
- Smart Cities
- Textiles
- Biotechnology
- Environmental Monitoring Specialists
- Government and Regulatory Officials

Startup

Powering Advanced Imaging

The Startup Zone at Automation Expo 2025 in Mumbai is a premier platform for tech startups in industrial automation, open to companies registered within the last 24 months. It provides a unique opportunity to showcase innovative solutions to a global audience. Startups can gain exposure to industry leaders, investors, and potential customers, facilitating crucial networking. This platform helps emerging companies establish credibility and visibility in a competitive market. Participants can generate qualified leads and form valuable partnerships. It's an ideal space for scaling operations and accelerating growth. The Startup Zone connects startups to the thriving industrial automation ecosystem. It's the ultimate launchpad for startups aiming to make an impact and disrupt the industry.

Conference on Sustainable Process Evolution

Automation for a Greener Future

Featured Sessions:

1. IIoT in Process Automation
2. Automation for Circular Economy
3. Sustainable Process Automation in Manufacturing Environments.
4. Energy Management for Zero emission
5. Innovations in Automation for Green Fuels

Conference on Factories for Future

Transforming Industries for a Sustainable Future

Featured Sessions:

1. Smart Factories: The Future of Manufacturing
2. Zero-Waste Manufacturing: Automation's Role in Sustainability
3. Green Automation: Strategies to Reduce Carbon Emissions
4. Sustainable Supply Chains: Enhancing Logistics with Automation
5. Robotics in Renewable Energy: Innovations in Clean Energy Production
6. Collaborative Robotics (Cobots) in Sustainable Smart Factories

Back to Basics

Building Strong Foundations in Automation

Featured Sessions:

1. Control System Philosophy
2. Control Valve & Flowmeter Selection and Calibration
3. Anti-Surge Control in Compressors
4. Safety Measures in Hazardous Area Classifications
5. Control System Architecture & Cybersecurity Essentials
6. The Evolving Role of Instrumentation in Smart Manufacturing

Bigger Innovations, Better Opportunities

Echoes of Innovation, Roars of Success!

EXPLORING THE WIDE SPECTRUM OF INDUSTRIES OF OUR VISITORS

- Oil & Gas, Refineries
- Chemicals & Petrochemicals
- Fertilizers, Dyes
- Iron & Steel, Metal Industry
- Plastics, Rubber
- Textiles
- Pharmaceuticals
- OEMs
- Engineering Goods
- Consulting
- Power & Energy
- Communication Systems
- Electronics & Electricals
- Machine Tool Manufacturers
- Integrated Projects
- Discrete manufacturing
- Cement, Glass
- Automobiles
- Renewables
- Food Processing
- Paper
- Security Systems

➤ STALL RATES

STANDARD STALL OFFERING

AREA	TABLE	CHAIRS	SPOTLIGHTS	PLUG POINTS	DUSTBIN
9 sq. meter	1	2	3	1	1
18 sq. meter	2	4	6	2	1
27 sq. meter	3	6	9	3	1
36 sq. meter	4	8	12	4	2

Bare Space: INR 12,000/- per sqm plus 18% GST (Min 36 sqm) .

Electricity for the exhibition period is to be ordered separately.

Constructed Space : INR 12,500/- per sqm plus 18% GST (Min 9 sqm)

- GST 18% is additional and any other taxes applicable during the FY 25-26.
- 10% Additional for three side open stalls and 5% additional for two side open stalls.
- Standard Amenities for Shell/Constructed space with a minimum of 9 sqm includes wall panels, Carpet, Name Fascia, 1 Table, 2 Chairs, 3 spotlights, wastebin, and 1 plug point of 5 amps
