

AUTOMAG

We Move Manufacturing...

Material Handling Excellence Since 1985

THE NEEDS WE SERVE

IN TODAY'S FAST-PACED WORLD, EVERY SECOND COUNTS. EVERY MOVEMENT MATTERS IN MANUFACTURING.

Global manufacturing demands speed, precision, and adaptability. Our Solutions:

Reduce manual handling to a minimum and ease operator workload.

Improve ergonomics and workplace safety by carrying loads unsafe for manual handling.

Provide intelligent material routing options for seamless workflows.

Increase production throughput and efficiency across the line.

Cut down shop-floor operating costs with smart automation.

***THE QUESTION ISN'T WHETHER YOU NEED BETTER MATERIAL HANDLING,
IT'S WHETHER YOU CAN AFFORD NOT TO HAVE IT.***

THE AUTOMAG PROMISE

WE DON'T JUST MOVE MATERIALS. WE MOVE INDUSTRIES FORWARD.

For over 40 years, AUTOMAG has been the silent force behind India's manufacturing success, designing and manufacturing best-in-class material handling systems that transform how industries operate.

Automobile

A JOURNEY OF CONTINUOUS INNOVATION

AUTOMAG'S VISION & MISSION

VISION

To become the preferred conveyor system supplier for customers seeking reliability, efficiency & excellence in their production.

MISSION

To partner with our customers to deliver innovative solutions, increase productivity, reduce operational costs & enhance the safety of their people.

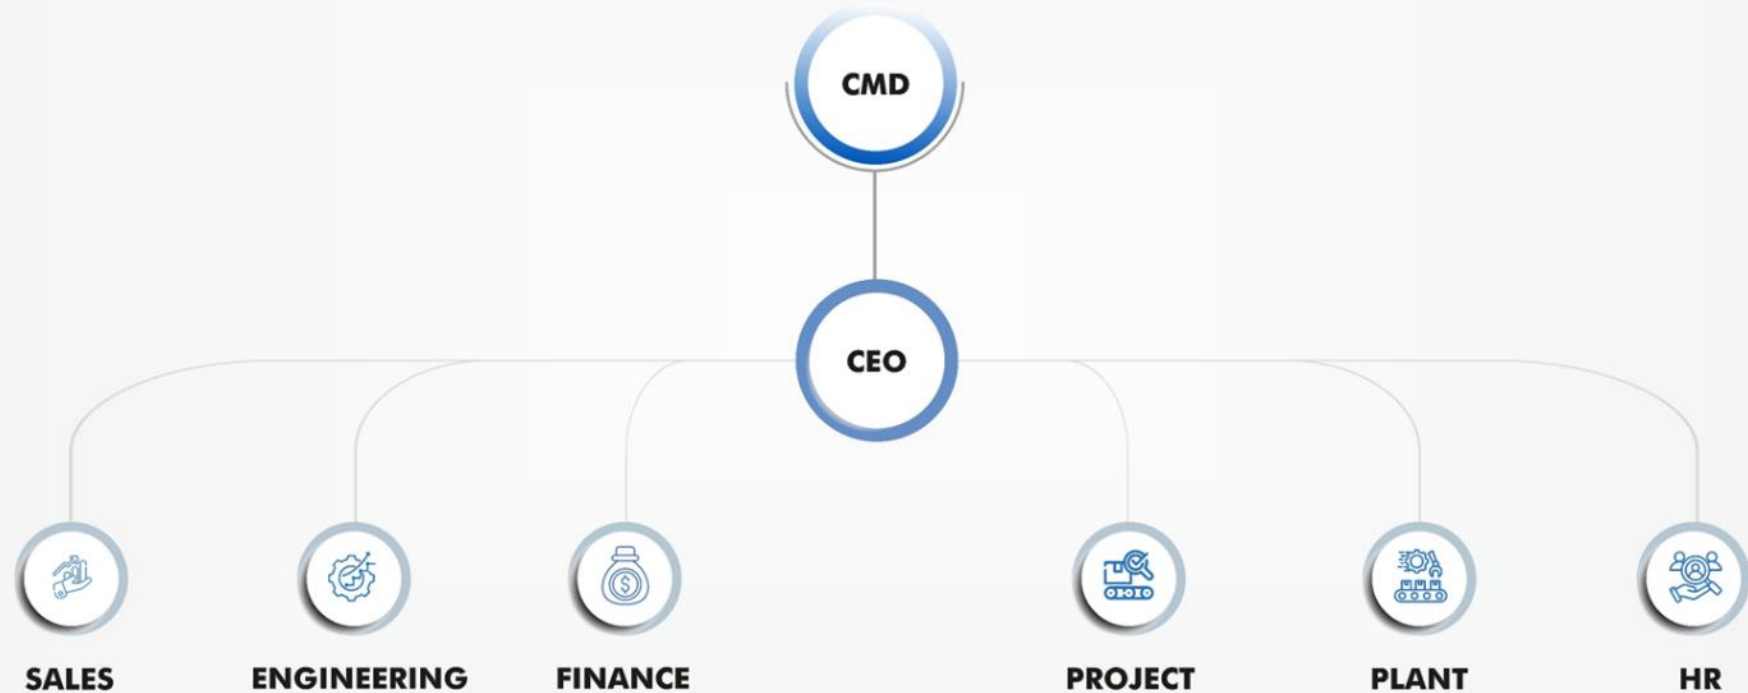

VALUES

Integrity | Trust
Empathy | Reliability
Commitment | Innovation

ORGANIZATION STRUCTURE

Automag's organization is built on clarity, accountability, and collaboration - ensuring every customer benefits from a well-structured, professional team.

A STRONG STRUCTURE, A STRONGER PARTNERSHIP.

THE AUTOMAG ADVANTAGE

ENGINEERING EXCELLENCE

Built on the engineering expertise of 40+ design engineers across mechanical, electrical & controls.

END-TO-END SOLUTIONS

Complete project lifecycle management; from pre-sales solution building to post-sales service support.

PROJECT MANAGEMENT EDGE

CCPM-based execution with a single point of contact from PO to commissioning. Experienced in handling shutdowns, greenfield, and brownfield projects.

MANUFACTURING ASSURANCE

Unique in-house facilities and versatile manufacturing processes, ensuring system-level testing and validation before dispatch.

CUSTOM ENGINEERING CAPABILITY

No two industries are alike - neither are our systems. Standard & custom solutions tailored to unique challenges.

PLATFORM AGNOSTIC PROGRAMMING CAPABILITY

Experience across Mitsubishi, Siemens & Allen Bradley PLCs for diverse customer environments across the globe.

MANUFACTURING EXCELLENCE

Where precision meets scale

WORLD-CLASS FACILITY

3.2 acres with material prep, weld, paint & assembly shops

STRATEGIC SUPPLY CHAIN

Suppliers within 10km radius & port proximity for speed and efficiency

HEAVY-DUTY INFRASTRUCTURE

Five 5-ton EOT cranes, 25m assembly bays for large conveyors

QUALITY ASSURANCE

Established QAP with stage-wise inspection checkpoints

IN-HOUSE CAPABILITIES

Unique facilities & processes; tested & validated for assured quality.

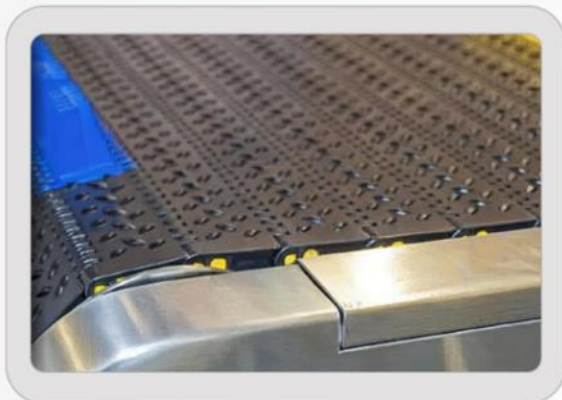

MODULAR MANUFACTURING

Engineered for shorter lead times & flexible scaling

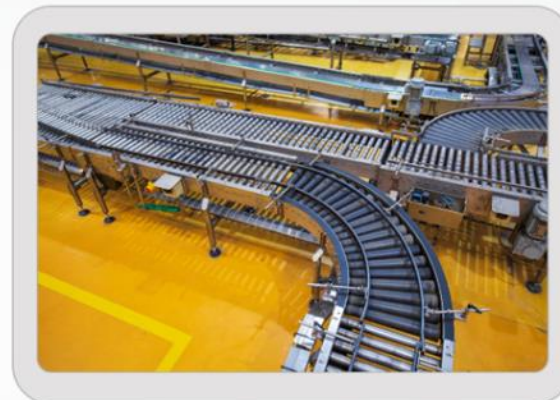

OUR PRODUCT RANGE

BELT CONVEYORS

- Straight, curve & inclined configurations
- Customizable belts: flat, modular plastic, cleated, wire mesh, synthetic
- Frame finishes: painted, galvanized, powder-coated steel
- Comprehensive safety features

ROLLER CONVEYORS

- Straight, curve, carousel, powered & non-powered options
- Multiple roller materials: steel, stainless steel, polyurethane
- Drive options: gravity, chain, belt, VFDs, motor rollers
- Modular design with separators, diverters, lifters

OUR PRODUCT RANGE

CHAIN CONVEYORS

- Ideal for engine, axle, and pallet transfer
- Integrates with lifters and shuttle systems
- High accuracy stopping
- Compatible with various pallet types and sizes

SLAT CONVEYORS

- Load capacity up to 10,000 kgs
- Metal & plastic slat options
- Various widths & lengths for customization
- Long-life chains for reduced maintenance

SKID CONVEYORS

- Customizable length, width & height configurations
- Load capacity up to 3,500 kgs
- SCADA integration through wireless I/O modules
- System modules: eccentric lift, cross traverser, turntable, belt lift, roller table

OUR PRODUCT RANGE

FRICTION CONVEYORS

- Load capacity up to 200 kgs with two-trolley system
- Quick assembly with bolt-together designs
- VFD control for on-the-fly speed adjustments
- Capable of handling elevation changes using lifters

POWER (MONORAIL) CONVEYORS

- Overhead systems: load handling capacity 3,000 kgs
Floor systems: load handling capacity 100 kgs
- Can operate in temperatures up to 250°C
- Continuous chain conveyor used for delivery and transfer applications
- 10 and 3 standard conveyors options available in overhead and floor respectively

OUR PRODUCT RANGE

POWER & FREE SYSTEMS

- Overhead systems: load handling capacity 500 kgs
Floor systems: load handling capacity 150 kgs
- Can operate in temperatures up to 250°C
- Floating drive for failsafe during overload
- Individual load control, stopping & accumulation

ELECTRIC MONORAIL SYSTEMS (EMS)

- Load capacity up to 1,500 kgs
- Speed up to 120m/min over straight sections
- Busbar power supply & control system
- Operating temperatures up to 45°C

OUR PRODUCT RANGE

ASRS - AUTOMATED STORAGE RETRIEVAL SYSTEMS

- Fast item access enhancing operational efficiency
 - Optimized floor space based on customer requirements
 - Flexible design for future expansion
- Precise inventory integrity

LIFTERS - SEAMLESS VERTICAL TRANSPORTATION

- Belt or chain-driven options | Electric, pneumatic or hydraulic actuation
- Custom designs for different weight capacities & lifting heights

CUTTING-EDGE INNOVATIONS

OUR NEW PRODUCT DEVELOPMENTS IN RECENT YEARS

LIGHT-DUTY FRICTION CONVEYORS

- Load capacity: 125 kgs | Low maintenance
Noiseless operation
- Modular bolt-together design
No lubrication required

AGV INTEGRATION THE FUTURE IS AUTOMATED

- Flexible material handling with automated guided vehicles
- Scalable systems for growing operations
- Safety sensors & collision avoidance
- WMS & ERP integration for real-time tracking

When industry leaders choose AUTOMAG, they choose excellence!

READY TO TRANSFORM YOUR MANUFACTURING OPERATIONS?

Whether you're looking to optimize existing processes or build next-generation facilities, AUTOMAG has the expertise, experience, and innovation to make it happen.

From concept to commissioning - we move manufacturing forward.

LET'S MOVE YOUR BUSINESS TOO!
